Twins Remind 'Not-at-Homes' To Mail Heart Sunday Gifts

ENVELOPE displayed by identical twins Debbie and Donna Horst is a king-sized version of the ones left on doorsteps of families who were not at home when their Heart Sunday volunteer called last week-end. The twins, who underwent identical heart operations the same day, are seven years old and live at Atkins Park, Pa. A year ago they called at the White House to help Mrs. John F. Kennedy officially open the Heart Fund campaign.

Briefs On Our Hospital!

One local resident, in discussing the hospital needs — and everyone agrees, we believe, to that — brought up the question: "More hospital facilities — yes! But don't we need more doctors?"

In support, it was said that "a ten a. m. appointment with a local doctor means any time before one p. m., following a sitting spree in the outside of office."

"If our doctors are so busy that you must cool your heels for a two-hour spell, then we need more doctors, for sure."

Another taxpayer makes this point: "The taxpayers furnish an up-to-date building and the most modern equipment as a base of operations for the doctors to practice their profession. How about my and your offices?"

Annual Questionnaire Of Congressman Rogers

Modernize US 27 Owens Asks Dept.

In a letter to the State Road Department's Ft. Lauderdale office City Manager Owen asks more complete and easy-to-read signs on highways in the Belle Glade area.

In addition that you have traveled this highway (US 27) and recognize that portions of it are extremely hazardous, and that the stretch between South Bay and Clewiston is the worst. The accident statistics of your department will substantiate this; not only should Highway No. 27 be modernized; it definitely should be furnished with a high construction priority."

The Marchettes Receive Awards

Awards were presented to The Marchettes by Mrs. Rinda Cunningham, for their achievements. Junior Corp leader was earned by Frances Collins. Most progressive award of free lessons in the corp was presented Carolyn Burns; Pat Lane won silver baton for best twirler, average 91. She also won second place in the 13-14 age group at the fair and was presented a medal. Beverly Steele won a silver majorette hat for being leader two years.

In the Juvenile Corp, Carolyn Atkinson earned leader of the group, best twirler in grade. Cynthia Cunningham received silver baton, best attendance. Co-teachers are Pat Lane, Eleanor Collier and Beverly Steele under direction of Mrs. Cunningham.

Dear Friends:

This is my annual Questionnaire in which I am asking you to give me your views on important issues expected to come before the Congress this year. Your cooperation in clipping out this form and returning it to me will be most helpful. Over 50,000 responses were received last year and your newspaper joins me in thanking you for this past help and asking you to again let me have the benefit of your thinking on these matters:

- Thank you,
PAUL G. ROGERS, M. C.
Room 111, House Office Bldg.
Washington 25, D. C.
- QUESTIONS:**
1. Should the United States reduce foreign aid? YES NO
 2. Do you favor the Rogers Bill to ban all trade with Cuba?
 3. Do you favor a reduction of transportation tax?
 4. Do you favor U. S. purchase of U. N. Bonds?
 5. Should a new Federal Department of Cabinet rank be created for Urban Affairs?
 6. Do you approve an increased Social Security tax to provide medical care for the aged?
 7. Do you favor Federal aid for: (a) School construction? (b) Teacher's salaries?
 8. Should the U. S. lower tariffs to compete in the European Common Market?
 9. Do you favor my proposal for systematic annual reduction of the National Debt?

Uncle Dan from Doolie Says:

DEAR MISTER EDITOR: Maybe your money is better'n mine but I can't recollect a important domestic problem our Government has actual solved in the last 20 year. Whenever we get one which is about ever day, them Congressmen just subsidize it and it passes on to someone else.

For that reason, I perked up when I read where Congressman Carroll Kearns was trying to meet one problem head-on. According to the papers, he is trying to get a committee appointed by the congress to count the gold reserves at Fort Knox about twice a year to see if it's all there.

Now there, Mister Editor, is a Solomon if I ever saw one. Grand larceny gets easier and easier as the dollar gets cheaper and cheaper and it's got so a feller has to set on a revolving piano stool to keep a eye on the nation's happening. Taxpayers money. Things has come to such a pass in Washington that we now got investigators investigating the investigators.

Even the Government office help is getting mighty careless about money. I was reading, for instance, where a feller in South Carolina got a \$10 bill with the signature printed upside down on it. How he ever kept it long enough to notice it. I don't know, but it just goes to show how careless they're getting in Washington with money. I'm strong in favor of counting the gold bricks at Fort Knox twice a year. In fact, if I had my druthers I'd druther they'd count 'em about twice a month.

Another thing I'm in favor of, Mister Editor, is this plan of the income tax folks to have the citizens knowed by the number instead mine I hope they'll take my Army serial number in World War I, my Social Security number, my telephone number and my old lady's age, put 'em all in a poke, shake well and git me a good one. I aim to use it from now on fer my official signature on everything, letters, check, bank notes and letters to my Congressman.

Come to think it, I might even order my old lady to have it put on my tombstone. I'd save a few dollars on the burial expenses. Instead of putting a long rignamole, just let the stone cutter chisel, Here Lays XIM-47652."

I see by the paper where them Russians has used up so much barbed wire to keep folks from defecting to West Berlin that the East Berlin farmers and ranchers is complaining they can't git enough for their pasture fences. They say milk is hard to git in East Germany and when their cows starts defecting, ole Khruhshchef is in real trouble. In a manner of speaking, Mister Editor, I hope them East German cows will milk this situation fer all it's worth.

Yours truly,
Uncle Dan

Foster's "Jeanie" Awards Scholarships In Annual Contest

Five Florida girls with beautiful voices have received a total of \$1300 in scholarship awards following the 11th annual "Jeanie with the Light Brown Hair" auditions held at the Stephen Foster Memorial here. Foster L. Barnes, director of the State of Florida music shrine, announced.

The 1952 "Jeanie" Rebecca Ann (Becky) Jenkins of Orlando received the \$500 top award from the Stephen Foster Memorial Commission to further her musical career. The talented soprano who recently finished her first semester at Florida State University, Tallahassee, has enrolled for the new term at Orlando Junior College. She won the "Jeanie" title on the eve of her 19th birthday.

Music scholarships of \$200 each went to four runners-up. They are Sharon Louise Blount, 17, and Priscilla Salemi, 18, both of Tampa; Carol Ann McDowell, 18, Gainesville; and Karen Reynolds, 19, St. Petersburg. The awards chairman for the Florida Federation of Music Clubs, Mrs. Leon Whitehurst of Brookville, said that the runner-up scholarships were given by Mrs. Alfred I. DuPont, Jacksonville; Mrs. R. W. Roberts, St. Petersburg; the American Society of Composers, Authors and Publishers, New York; and by Mrs. Whitehurst.

Judges for the colorful event were Geoffrey O'Hara, Pawling N. Y., representing ASCAP, and Professor Earl Redding of the Louisiana State University department of music. Mrs. C. Arthur Bullock, Canton, Pa., president of the National Federation of Music Clubs, crowning the new "Jeanie" in the presence of Stephen's Foster's closest living relative, his niece, Mrs. Evelyn Foster Morneswick of Stuart, Florida.

Transportation Tax Opposed By Rogers-Smathers Cosponsors

Congressman Paul G. Rogers today introduced in the House of Representatives a bill to abolish the Federal 10 percent tax on transportation.

"This tax was imposed in wartime, to discourage unnecessary travel," Congressman Rogers pointed out, "and its purpose has been long forgotten. Like so many other 'temporary' tax measures, it is still with us many years after the passing of the 'emergency' which brought about the tax in the first place."

Congressman Rogers is cosponsoring this tax repeal bill with Florida's Senator George Smathers, who has introduced a like bill in the Senate.

Please drive with care. Don't be carried on the family tree as a statistic.

Are YOU Wondering...

Like so many other people, whether you should buy new furniture, or have your old upholstered.

If so, please read this ad!

The first consideration should be, do you like this particular piece of furniture, the style and comfort qualities.

The second thing to consider, will your furniture be as good of better than the original. The answer, very simple, the fabric, more than any other one thing determines the value of your furniture. Manufacturer's fabric is usually much cheaper than you would use to upholster your furniture.

The third consideration is the assortment of fabrics that are available to you. We have hundreds of fabrics and nearly all prices, colors, patterns, finishes and quality. Your upholstered piece can be original.

The fourth consideration is the cost. This varies with every piece of furniture. It is determined by the style and complexity of each piece, plus the cost of material used. The total upholstered cost in relation to the original cost also varies. If you have good furniture, the cost will be approximately one-half the original cost.

If you are still wondering, then call us today we will be glad to give you a free estimate, and help you in any way we can to make a decision.

The number is YU 2-5831!

Episcopal Meet Ft. Pierce

Deanery Meet Ft. Pierce
The Episcopal Church, at a Deanery meeting, taking in the East Coast district, held its annual meeting at Ft. Pierce at St. Andrew's Church.

More than 350 were present. Bishop Duncan and Bishop Hargrave were the speakers. Attending from Belle Glade were G. R. Townsend, David Baile, Dr. Thomas Bregger, Ronald Lewis, M. E. Ludlow, Harold Zump, Father Loring, Dr. Winchester, E. M. Lively and Emmett E. Roberts.

Diocese Of Miami Expanding Rapidly

The Diocese of Miami has been expanding at the rate of 300 churches a year. In the short 39 months since Bishop Coleman P. Carroll was installed as its first Bishop, the Diocese has been developing a series of a building program which has reached the staggering total of 530 churches.

These are only two of the facts revealed in a year-end development and construction report prepared for Bishop Coleman P. Carroll by Pastor Patrick J. O'Donoghue, V.G., pastor of St. Mary Cathedral and chairman of the Diocesan Building Commission.

The report shows that more than \$10 million has been expended by the individual parishes on strictly parochial construction. At the same time, nearly \$17 million represents the amount going into diocesan and non-diocesan projects.

Of these amounts, \$11 and one-half million of the parish work has been completed or is nearing completion, with \$1 and one-half million additional in blue print stage. With more than \$17 million completed, there is at the present time nearly \$10 million of diocesan and non-diocesan construction under way.

The greatest volume of construction was completed during 1981. It amounted to nearly 90 and half million. In 1980 it was about \$6 million and in 1979, about \$3 million. At the present time there is \$10 million of work under way and about \$1 and half million in the planning stages.

New and vital diocesan projects are expected to be announced soon with the start of the annual Diocesan Development Fund Campaign. The vast program embraces a total of 39 parishes, 12 of which are already planned, including 24 churches completed, one under construction and three already planned; a shopping center chapel and 10 missions, four completed and six to be started. Additions also are planned for two churches. Sixteen new grade schools and eight new high schools have been planned. Two more grade schools soon will be started. Additions have been built to eight other schools.

In the field of higher education, three colleges are involved. The new Biscayne College, first

Churches of Christ Scientist

Brotherhood will be stressed at Christian Science church services Sunday. Scriptural selections in the Lesson-Sermon entitled "Mind" will include the advice of Paul: "Now I beseech you, brethren, by the name of our Lord Jesus Christ, that ye all speak the same thing, and that there be no divisions among you; but that ye be perfectly joined together in the same mind and in the same judgment" (1 Cor. 1).

One of the correlative citations to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states (pg. 469-470): "With one Father, even God, the whole family of man would be brethren; and with one Mind and that God, or good, the brotherhood of man would be established. Truth and love, and unity of Principle and spiritual power, which constitute divine Science."

Nothing relies and venturing the mind is the solution. - John Burroughs

Earnest resolution has often seemed to have about it almost a savor of omnipotence. - Samuel Smiles

How Christian Science Heals

"TAKING OFF HUMAN SHACKLES" WSWN 108 K.E. Sundays 11:45 a.m.

Then Peter opened his mouth, and said, Of a truth I perceive that God is no respecter of persons. (Acts 10:34).

To ask help for a person in need is talking with a distinguished senator. He said, "I've become so busy I can no longer concern myself with individuals." She replied, "That's remarkable. Even God hasn't reached that stage yet."

Today, as yesterday, God is interested in all individuals, regardless of race, nation, or class. He is not a respecter of persons. In His sight all men are equal, and those who believe in Christ His Son as their Redeemer are equal and brothers.

In his book "Victorious Living," E. Stanley Jones has said, "We will be 'builders together,' where the sufferings of one are the sufferings of all, and where the joys of one are the joys of all the other children. Into that holy tabernacle of humanity we can ask Him to come - and He will!" When He does come, all barriers to brotherhood will be transcended.

PRAYER: O God, elevating and impartial, may we always show Christian concern for our fellow men everywhere, as they are precious in Thy sight. In the name of Jesus, who taught us to pray, "Our Father who art in Heaven, Amen."

THOUGHT FOR THE DAY In this chaotic world, Christian brotherhood is one of God's priorities.

Founder's Day Observed By PTA

The Lake Harbor P. T. A. held its regular meeting Tuesday night at the school house with Mr. A. B. Mathis, Jr., presiding. The Salute to the Flag was followed by the devotion given by Mr. Rudder. The State President's letter was read by Mrs. Minnerich. Mr. Rudder's 5th and 6th Grades won the attendance banner.

Mrs. Murray Weeks who has moved to Belle Glade, resigned as vice-pres., and Mrs. John D. Hemphill was elected to serve in her place for the remainder of the year.

A Founder's Day program was presented by Mrs. Hemphill assisted by Mrs. C. A. Thomas, Mrs. H. D. Merriam, Mrs. Martin Lee and Mr. Hugh Rudder and Mr. Mathis. A birthday cake decorated the table. Refreshments were served by Mrs. H. D. Merriam, Mrs. Frank Robertson and Mrs. Jimmy Clayton.

Sunday School Class Has Valentine Party

Mrs. John D. Hemphill entertained her Junior Sunday School Class Wednesday with a Valentine party. They enjoyed a ride on the dike.

Refreshments of cold drinks, mints and cup cakes were served on the rocks near the water. Valentines were exchanged and games enjoyed.

Those attending were: Molly Thomas, Norma Jean Rogers, Joyce and Glenda Byars and David Johnson.

Boy Scouts Campout

Eleven boy scouts of Troop 621 accompanied by Jack Carter, assistant Scoutmaster and Jack Hollingsworth spent Friday through Sunday on a camp out.

The campout site was at the troop area at the dike. They enjoyed a five mile hike, swimming and cooking their own food and church services.

Scouts Week-end At Camp Tanah Keeta

Troop 601 sponsored by St. John's Episcopal Church had beautiful weather on their camping trip last weekend.

Advancement was the theme for the trip. Twelve scouts out of the 16 attending passed one or more required tests.

Three swim periods and the Saturday night campfire for some reason proved to be more popular than the work details. One detail they seemed to en-

joy was the policing of the area surrounding their campsite for bottles, cans and other trash left by careless campers. The scouts burned and buried this trash as part of their good deed for the weekend.

Attending this trip were: Scoutmasters R. H. Lewis, and C. E. Haines, Senior Patrol leader Eddie Haines, Greg Jones, Jeff Altman, Henry Tomeu, Jeff Smith, Ronnie Cooper, Jeff

Hansford, Horace Whidden, Dennis Connell, Robt. Blackwell, Homer Wilson, Billy Blackwell, Roger Harold, Barney Weeks, Charles Ruff and Lane Creech.

What size Chevrolet do you want to save money on?

CHEVROLET IMPALA Room, refinement and riding comfort. Forward, the Impala Sport Sedan.

CORVAIR MONZA Sports Car, spiced without a sports car price. At rear is the Monza Club Coupe.

CHEVY II NOVA The frisky family-sized Chevrolet with a low, low price tag. Above right, Nova Sport Coupe.

Like your driving sporty, with quicksilver steering, flat-as-a-pancake cornering, sure-footed traction? Then a Corvair Monza's for you.

Or maybe the new-size Chevy II is more to your liking. Built for big families and still slips neatly into small parking places. And, with this, the kind of ingenious engineering (new easy-ride Mono-Tite rear springs, for example) that

won this year's coveted Car Life Magazine Award for Engineering Excellence.

But say you want to go all out—to get the full treatment in space, spirit and splendor. Then there's nothing like a Jet-smooth Chevrolet. Makes paying more pointless.

So size 'em up—then save it up—at your Chevrolet dealer's.

U. S. Navy Band
(Continued from Page One)
ial act of the 86th Congress, designating this band as the official band of the United States Navy. Since that day we have had the United States Navy Band of Washington, D. C.

With this new official status, the traditional sea-going uniform of the sailor was discarded and the trim-looking uniform of the Navy's Chief Petty Officer was adapted. These are still used. However, today, the band has special dress uniforms which they wear for their evening concert appearances, when on tour, and for special occasions in Washington, D. C.

During the Fall of 1955, the United States Navy Band, departing from their regular sche-

dule of music for official Washington, made the first of their, now annual, concert tours authorized by Congress, and approved by the President of the United States. The band took their music to the grass roots of the Nation, to be enjoyed by all.

The current, 1962, spring concert tour, has the official approval of the president of the United States, John F. Kennedy.

With the blessing of all our Presidents since Coolidge—Hoover, Roosevelt, Truman and Eisenhower, the United States Navy Band has appeared before tremendous audiences. They have played in hundreds of communities and cities throughout the United States, as well as Canada, South America and

elsewhere in this "Shrunken World."

Today, the United States Navy Band is composed of more than a hundred individual artists, each of whom could take his place with the greatest of the world's symphony orchestras. The duties assigned to the Band require unlimited versatility. The Band traditionally plays for the funeral services of Navy men interred in Arlington Cemetery; however, most of their duties are of a broader scope and they render with ease the renowned compositions from the pens of the world's most talented composers. They are an indispensable part of Washington's colorful and seemingly limitless parades. They play for the inauguration ceremonies, as well as many of the official functions of the White House.

This inspiring Band has progressed far beyond the dreams of their early participants. In 1940, the American Bandmasters Association accorded them the recognition as the outstanding Band in America.

In 1949, following the conclusion of World War II, the Band resumed their annual concert tours, having dispensed with same during that period.

Cub Scout Pin
Given Paul Rogers
Congressman Paul Rogers has been presented with a Cub Scout Pin part of the National Boy Scout Week, February 7-13, celebrations.

The pin was presented to Rogers by young Kim Edwards. The Florida Congressman accepted, noting the 52 years of achievement by the Boy Scout movement.

Rogers said, "more than 5,000,000 active scouts and volunteer leaders carry on the program today, and render great service in helping build both the character and physical fitness of our leaders of tomorrow."

Fla. Wonder Metals
Tested At University
University of Florida College of Engineering researchers are studying the high temperature abilities of titanium, one of Florida's "new" wonder metal found in sand. They are attempting to improve titanium alloys and to eliminate defects in these alloy to meet the high heat demands of jets, engines, rockets and other space age phenomena.

University metallurgists are also checking out another Florida wonder metal, zirconium, to understand how the metal behaves so that improved methods on making shaped articles out of it for atomic uses may be developed.

Through such studies, the University scientists have proved that impurities in a piece of zirconium are not iron as previously thought, but chromium. This knowledge, says Dr. Frederick Rhines, metallurgy head, is useful in improving the quality of zirconium for corrosion resistance, upping its yield, and making it more useful for atomic products.

A Woman's View
Fine Sounding Nonsense
That Theatens Family
By Mrs. Walter Ferguson
"I, as a parent," writes a feminine columnist, "never wanted my children to feel they owe me anything."

It's hard for me to find words to express my disagreement with her theory. For 15 years I've heard that snug remark—usually from the lips of parents under 50. With it goes a lot of fine talk about how they wish to be loved for themselves alone.

Of late this has become a fashionable pose. It seems pretty silly to me. In the first place, when the children of a family are brought up to think they owe nothing to their parents, they are bound to become either ingrates or irresponsible. With that in mind, they aren't going to believe they owe much to fellowmen or country. They may grow up to avoid family duties and finally refuse to take responsibility for their own children.

In short, this kind of teaching is almost sure to breed a generation with no sense of duty. For such home training is a part of education in the development of character. A person who feels no responsibility for parents who have used him well is without character.

Seed And Insect Eating Game Bird A Pakistan Import Tested In Glades

West Palm Beach — Game Management personnel of the Game and Fresh Water Fish Commission released 70 Black Francolins, a highly prized game bird, imported from Pakistan India, at the Everglades Experimental Station, in Belle Glade.

Frank Winston, Wildlife Biologist with the Commission stated that the Black Francolin is rated high by noted wild life experts, as being climatically suited for testing in South Florida.

The Black Francolin, weighing about a pound, is a "seed eater" thriving on a diet of grass seeds. It also takes many insects through the year and does no harm to agricultural crops.

Winston added that the Black Francolin may prove to be as prolific a game bird in the deep South as the pheasant has proved to be in the states where it has taken, thus providing excellent hunting and lessening the shooting pressure on native game birds.

During the experimental period, Winston said that the game birds which have been released, would be placed in carefully selected areas and under constant observation by Game Commission personnel.

Home Builders Assn
Plans For Parade
The Home Builders Association of Palm Beach County has announced plans for the 1962 Parade of Homes and Home Show scheduled March 24 through April 1 in the city of Palm Beach Gardens, Florida.

Robert C. Brown, a director of the National Association of Home Builders and a past president of the Palm Beach County group, will serve as chairman of the Parade of Homes. Arthur N. Hughes will head the committee for the Home Show.

This year's Parade, according to Brown, will feature twenty models at a single location, an increase of eight homes over last year's show. The Home Show will be housed in a huge circus tent at the head of the Parade street.

"Our Theme is 'A New World in Family Living', and builders and builder-suppliers are working together to bring to the display all the new products, materials, designs and applications for better living."

Massing Of Colors Talk By Mr. Bundy

The massing of the colors, an annual event sponsored in the Palm Beaches by the Sons of the American Revolution, will be held Sunday, February 25th at 2:30 p. m. at the Memorial Presbyterian Church, 1300 So. Olive Avenue, West Palm Beach.

To give honor to the Father of the Country and the banner which represents it. This program has been held on the Sunday closest to Washington's birthday for more than two decades.

The Girl Scouts, Boy Scouts, many Military groups, Patriotic Societies and Civic organizations in this area, who annually participate in this event, have made it a most colorful and heart-warming affair.

The public is cordially invited to attend.

The guest speaker will be Major Edgar C. Bundy, former Intelligence Officer of the U. S. Air Force, who has served in every continent, has testified before committees of the U. S. Congress and before various State legislative bodies, and is the same Major Bundy who warned Congress one year in advance of the invasion of North Korea by armies of North Korea and China.

Major Bundy has been in the United States for the last several years, has just returned from Europe where, for the second consecutive year, he lectured before military personnel and many colleges and universities.

The impressive and spectacular feature of the program is the march of the massed colors of all participating organizations up South Olive Avenue and into the church.

Everyone is urged to arrive promptly at 2:30 p. m.

"Under The Yum Yum Tree" Comedy
Beginning At Playhouse Feb. 26
The delightful comedy of young love, "Under The Yum Yum Tree," which ran a solid year on Broadway last season, will be next week's attraction at the Royal Poinciana Playhouse beginning Monday, Feb. 26.

Starring in this mad-cap comedy is the internationally famous actress, Margaret O'Brien, and one of the Playhouse's favorite actors, Russell Nype.

Very few films, of course, is remembered most vividly as the young orphan in the motion picture, "Journey For Margaret," and as a winner of the coveted Academy Award for her role in "Meet Me In St. Louis."

As a child star she was one of the top-box office draws in the picture industry. Since that time, she has spent most of her career on the legitimate stage and has appeared in a number of the top television dramatic shows.

Mr. Nype burst on the theatrical world in the Ethel Merman Broadway production of "Call Me Madam" and since then has become a favorite of the three media of show business; legitimate theatre, television and nightclub.

He goes on, "remember Mr. Nype, in last season's production of 'Roman Candle' and he has also performed in Playhouse producer Frank J. Hale's famous 'Celebrity Room.'

Directed by Robert Moore, "Under The Yum Yum Tree," tells the story of two young people who enter into a platonic relationship before taking the marriage vows. The troubles they have trying to keep the relationship above board and the intentions of a none-too-honorable male landlord, make this one of the funniest comedies of the 1962 season.

Heart Fund Drive Closes Feb. 28th

The Heart Fund campaign in the Belle Glade Business District will close at the end of February. at the State Fair in Tampa on Saturday, January 17. This is an annual award presented each year to one of the most outstanding 4-H'ers in each county. Janette is a senior this year and plans to enter F. S. U. in the fall. She has one of the outstanding projects in the county. She also has been with a junior leadership project with some younger 4-H club members in the Canal Point 4-H club.

More than 5,000 boys and girls were in hand for the events where Summer County's team won high score of 1,294 points in judging all breeds of swine, beef and dairy cattle. Hendry County was fifth with 1,223 points, and the ninth had 1,222 points, indicating the keen competition.

John Jarriel of Loxahatchee and Bruce French of West Palm Beach were the other members of the Palm Beach County livestock judging team, also Lynne Wiley, formerly of Palokoe.

THANK YOU
Our sincere thanks and appreciation goes to the many wonderful friends for all their help in the loss of our beloved husband and father. The many kindnesses shown us leave us without words to express our gratitude. May God richly bless each and every one of you.

A Woman's View
Fine Sounding Nonsense
That Theatens Family
By Mrs. Walter Ferguson
"I, as a parent," writes a feminine columnist, "never wanted my children to feel they owe me anything."
It's hard for me to find words to express my disagreement with her theory. For 15 years I've heard that snug remark—usually from the lips of parents under 50. With it goes a lot of fine talk about how they wish to be loved for themselves alone.
Of late this has become a fashionable pose. It seems pretty silly to me.
In the first place, when the children of a family are brought up to think they owe nothing to their parents, they are bound to become either ingrates or irresponsible. With that in mind, they aren't going to believe they owe much to fellowmen or country. They may grow up to avoid family duties and finally refuse to take responsibility for their own children.
In short, this kind of teaching is almost sure to breed a generation with no sense of duty. For such home training is a part of education in the development of character. A person who feels no responsibility for parents who have used him well is without character.
Besides, can we truthfully tell our young that they are relieved of parental care, just because their own parents are so high-minded they demand nothing? Certainly not. No matter what they think, they will have to chisel out tax dollars to keep their own or other people's dependent relatives in the form of old-age pensions and other welfare payments.
It seems to me we undermine the foundation of democracy and certainly destroy the family unit by teaching children they owe parents nothing.

Jr. Colleges Expect 57,000 In '70
The anticipated growth of junior colleges in Florida is expected to place them within commuting distance of 99 per cent of the state's population in the next several years according to a summary by four Florida educators.

Published in the current Economic Leaflet by the University of Florida's Bureau of Economic and Business Research, the report predicts an enrollment increase from 21,533 in 1961 to 57,000 in 1970. To handle this enrollment the number of junior colleges will expand to a figure in excess of 50.

The summary was made by professors Willis A. LaVire Harvey K. Meyer, and Robert Wiegman, all of the University of Florida faculty and James L. Wattenbarger, of the Florida State Department of Education. Tracing the growth of the junior college movement in the United States and Florida, the study points out that less than five years ago there were only four junior colleges in the state

Has Heart Surgery At Robert Long Hospital

Mrs. Mike Murphy received word from her daughter, Mary Alma Stevenson, that her husband Frank had heart surgery at Robert Long Hospital in Indianapolis, Ind., on Feb. 15, and had come through the operation fine.

The Stevensons resided here before leaving in 1953 for Indianapolis. Frank was employed on the Everglades Experiment staff and Mary Alma taught at the Elementary School.

Mrs. Murphy heard this week that Frank will have further surgery. On Feb. 26 he will undergo open heart surgery. The 29 pints of fresh blood for this operation. He has Type A blood.

Friends wishing to contact the Stevensons may do so in care of the Robert Long Hospital, Room G 633, Indianapolis, Ind. They are residing in Vincennes, but Mrs. Stevenson will stay in Indianapolis the week of Feb. 26.

Income Tax Speakers Available To Groups

Laurie W. Tomlinson, District Director of Internal Revenue, said today his office is ready to give special assistance to farmers in preparing their Federal income tax returns.

He said qualified IRS speakers are available to farmer group meetings to explain the law as it relates to agricultural income and expenditures for income tax reporting and self-employment tax computation.

Such groups should address requests for IRS speakers to Internal Revenue Service, West Palm Beach, Fla., in sufficient time to permit arrangements to be made.

Mr. Tomlinson said farmer taxpayers with specific problems may contact his office by telephone, letter or in person for assistance.

He called attention also to the Internal Revenue Service's popular publication, "Farmer's Tax Guide," free at either IRS offices or the offices of county agricultural agents. The 15 chapters of the booklet contain easy-to-read instructions in both general and specialized areas of Federal income and self-employment taxes as they apply to farmers.

Director Tomlinson said the special assistance to farmers is part of Internal Revenue's expanded program for improved information, education and service to all taxpayers.

Two Year Program In Dental Hygiene At PB Jr. College

Dr. Harold C. Manor, President of Palm Beach Junior College, and Mr. Howell L. Watkins, Superintendent of the Palm Beach County Schools, have been informed by the W. K. Kellogg Foundation that the Foundation has approved a grant to assist the College in developing a curriculum in Dental Hygiene Education.

The grant will total \$73,622 for a two and one half year period. Foundation funds will be used for instructional salaries, special equipment, instructional supplies and other expenses.

The building to house this program will be provided from funds appropriated by the 1961 Legislature and will cost approximately \$83,000.

The Florida State Dental Society has granted \$10,000 to the program. Dr. Robert Vason of Mount Dora, Florida was chairman of the State Committee working on the development of Dental Hygiene Education in Florida.

This program at Palm Beach Junior College has been planned over a two year period with the Palm Beach County Dental Society, Dr. Lee Toothman, President, and a Dental Hygiene Advisory Committee with Dr. John Dalton as Chairman.

They have provided dedicated leadership in assisting the College to develop the program.

Local contributions will be needed to provide built-in equipment necessary for the laboratory and other facilities.

The building will house a thirty-two chair clinic, a demonstration operator, X-ray, darkroom, laboratory, classroom-waiting room, locker room and offices.

Students will be accepted in the fall of 1962 for this two year program. There is a vital need for additional qualified Dental Hygienists in Florida, and especially in Southeast Florida.

Palm Beach Junior College welcomes this opportunity to broaden its educational services to the community.

The total cost of the program for the two and one half year period is expected to be approximately \$250,000. Because of this special program, it would have been impossible for the College to have assumed the total cost. The College is most grateful and appreciative of the work of the W. K. Kellogg Foundation and the Palm Beach County and Florida State Dental Societies.

Water For Folks! Water For Agriculture! Water For Fish & Fowl!

WATER CONTROL — neither too much, nor too little WHEN, WHERE and HOW needed — is the purpose of the works of the US Engineers and the Central and Southern Florida Flood Control District in which the State of Florida and the Federal Government have invested more than 100 million, with plans for an additional 200 millions.

Geologists and scientists tell us that Nature has endowed Florida with more than it needs in fresh water sources.

Lake Okeechobee is Nature's tank for assembling the fresh water from the Kissimmee River Valley, Fisheating Creek Taylor's Creek and other lesser contributors.

All southeast Florida is dependent on the overflow of Lake Okeechobee for its fresh water source, as is the agriculture around the Lake.

The level of Lake Okeechobee is controlled (?) by regulations of US Engineers.

Many east coast communities,

Two Sites Readied In Recreation Areas

An announcement by Robert R. Horner, Vice Chairman of the Governing Board of the Central and Southern Florida Flood Control District, revealed that the State Road Department will undertake the necessary operations to provide a badly-needed recreational access area on U. S. Highway 27, approximately a mile and a half north of Andytown in Broward County.

It is anticipated that the moving of spoil onto the road shoulder between the pavement and the North New River Canal will be undertaken by State Road Department crews this week. The providing of an adequate parking area and a highly functional boat launching ramp will greatly expand Broward County's recreational opportunities in the Everglades region.

Conservation Areas. Pool picnic facilities and the like, was awarded several years ago, on a bid basis, to Joseph T. Reese, Fort Lauderdale businessman.

Three governmental agencies are parties to the contract — the U. S. Fish and Wildlife Service, the Florida Game and Fresh Water Fish Commission and the Flood Control District.

Horner said the fill will be placed in position as rapidly as possible and Reese should begin operations on a temporary basis offering boat rental, within 30 days.

Shell engineer uses stethoscope to help detect noise the ear alone can't hear. Super Shell fights three different engine noises to give you top performance.

How 3 of Super Shell's 9 ingredients fight engine noise—including one hard-to-hear form of knock that could lead to real damage

SHELL scientists will tell you that any good gasoline should reduce engine noise. That's why they include no less than three noise-fighters in Super Shell's 9 ingredient blend. Here's how they work to help give you a soft-spoken engine—and top performance.

How Super Shell fights high-speed knock

High-speed knock makes a sharp, high-pitched noise—like metal tapping against metal. Because it's most likely to occur in hot engines at turnpike speeds, high-speed knock is often difficult to hear.

But even though you may not hear it, high-speed knock can pound away at pistons—even lead to costly damage.

Fortunately, high-speed knock isn't too common. But Shell scientists have known about it for a long time. Ever since they pioneered the development of a substance called Alkylate to help control high-speed knock in aircraft engines. Today, Alkylate is an ingredient in Super Shell gasoline.

How Super Shell fights wild ping

Wild ping doesn't last long. It sounds like the erratic beat of a nervous drummer.

This clatter is actually a series of premature explosions. They're caused by glowing deposits that ignite the fuel too soon. Super Shell's famous TCP* additive tackles this problem. It acts to "fireproof" deposits that might glow. Result: chance of wild ping is greatly reduced.

How Super Shell fights ordinary knock

Most people have heard ordinary knock. It may sound to you like marbles dropping into an empty oil drum.

Super Shell's anti-knock mix is so powerful that a teaspoon per gallon is enough to raise anti-knock rating a full five points.

This anti-knock mix helps regulate the combustion of Super Shell. Thus, each piston gets a firm, even push. Not a sharp, jarring jolt.

Now, read how the other six ingredients in Super Shell's 9-ingredient blend help you get top performance.

How Super Shell's other ingredients help you get top performance

Cat-cracked gasoline helps your engine deliver smooth, even power.

Gum preventive helps keep carburetors clean inside.

Platformate is for extra mileage.

Butane is for quick starts.

Pentane mix is for fast warm-ups.

Anti-icer (added in cold weather) helps check carburetor icing.

*Try a tankful of Super Shell today. Then, you'll know what top performance really is.

*Trademark for Shell's unique gasoline additive. Gasoline containing TCP is covered by U.S. Patent 2899112.
